DigiComp Update – January 2016

In December 2015, we reported about the DigiComp focus group meetings held by the Communications Team and attended by all non-managerial staff.

After the initial compilation and analysis by the team members, the feedback was organized into four primary categories to include:

- Questions
- Concerns
- Suggestions
- Comments.

To further organize the information, subcategories were created under **Questions** to include:

- Implementation of the System
- New System Functionality
- Training
- Other

Under **Concerns** the subcategories included:

- Implementation of System
- Data Concerns
- New System Functionality
- Other.

A PowerPoint with the feedback was developed and presented to the steering committee in January. As a result of this meeting and the focus group meetings, a Frequently Asked Questions page will be created on the DigiComp website to include all the questions asked of the team. It will include the team's response as well as the response of the steering committee to the questions the team was unable to answer.

The team would like to thank all staff members who participated in the meetings. Without your participation and input the focus group meetings could not have been as successful as they were. The team plans to hold additional meetings throughout the project.

The DigiComp Team will continue to provide monthly updates of the status of our project, and details regarding the new system.

DigiComp Communications Team members include Carol Cast, Barbara Hersh, Tara Noll, Roxie Ortiz, Alan Stanton and Jessica Webb.

We welcome any questions or input, which can be sent to digicomp@dol.ks.gov.
